

# MINI Seminar Schedule

Visit our mini seminars to learn more about Toshiba’s T&D technologies and solutions for reliable, sustainable, and digital power grids. Each 20-minute session provides a brief introduction to our latest products, solutions, and technical approaches.

|                     | 24 Aug<br>Mon                                                                                                                          | 25 Aug<br>Tue                                                                    | 26 Aug<br>Wed                                                                    | 27 Aug<br>Thu                                                                                                                          | 28 Aug<br>Fri                                                                    |
