## Toshiba Announces Consolidated Results for the First Quarter of Fiscal Year Ending March 2008

TOKYO--Toshiba Corporation today announced its consolidated results for the first quarter (April-June) of fiscal year (FY) 2007, ending March 31, 2008.

## Overview

The Japanese economy continued to expand during the quarter, as capital expenditure increased on continued improvement in corporate profitability and consumer spending rose on better employment figures, and despite some areas of weakness reported in production indexes. Overseas, the pace of economic expansion in the US eased, but Europe saw continued economic recovery and Asia continued its economic expansion.

In these circumstances, all of Toshiba's business segments posted increased sales against the year earlier period, the result of business development grounded in the Group strategy of achieving high growth with steady profitability. Toshiba’s overall consolidated sales for the period were $1,664.6$ billion yen (US $\$ 13,533.3$ million), an increase of 211.8 billion yen from the same period of the previous year.

Consolidated operating income improved by 0.4 billion yen from the year earlier period to 21.2 billion yen (US $\$ 172.2$ million). Electronic Devices recorded increased operating income against the year earlier period on a continuing solid performance. Social Infrastructure maintained profitability despite a decrease in operating income, and Digital Products saw deterioration in operating income (loss). Income before income taxes and minority interest rose by 12.1 billion yen to 34.0 billion yen (US $\$ 276.5$ million), including a gain from sales of securities in affiliated companies. Net income increased by 16.6 billion yen from the year earlier period to 20.6 billion yen (US $\$ 167.7$ million).

## Consolidated Results for the First Quarter FY2007 by Segment

(* Change from the year-earlier period)
Digital Products: Increased Sales and Deteriorated Operating Income (Loss)
Sales of Digital Products rose from the same period a year ago on sales growth in the PC business, primarily in the US. The segment saw deteriorated operating income (loss) against the year earlier period. The PC business posted significantly higher operating income as a result of an improved cost structure and higher sales, while the Digital Media Network business, such as hard disk drives, and the Mobile Phones business saw deteriorated operating income (loss).

Electronic Devices: Increased Sales and Increased Operating Income
Electronic Devices increased sales against the previous year. The Semiconductor business saw higher sales primarily in NAND flash memory and system LSIs, while the LCD business showed lower sales. Segment operating income increased from the year-earlier period, as a result of solid performance in system LSIs and continued high profitability in memories, and despite deterioration in operating income (loss) in the LCD business due to a decline in sales prices and lower unit sales for mobile applications.

Social Infrastructure: Increased Sales and Lower Operating Income
Social Infrastructure increased sales significantly from the same period of the previous year, on higher sales in the Power Systems, Industrial Systems and Medical Systems businesses. The segment maintained once again recorded first-quarter profitability, as it did in the same period of the previous year, primarily on healthy performances in the Power Systems, Industrial Systems and Medical Systems businesses, and despite a lower performance in broadcasting systems, as Japanese broadcasters almost completed the transition to digital broadcasting equipment.

Home Appliances: Increased Sales and Comparable Operating Income (Loss)
Sales of Home Appliances increased against the year-earlier period, on higher sales of refrigerators and air conditioners. The segment operating loss was at the same level as for the year earlier period, as air conditioners posted solid results but lighting equipment posted a sluggish performance.

Others: Increased Sales and Increased Operating Income
Others saw increased sales and increased operating income, primarily on sales of real estate.

## Note:

1. Toshiba's Consolidated Financial Statements are based on U.S. generally accepted accounting principles. The consolidated industry segment information is based on the Japanese Consolidated Financial Statement Code Article 15-2, instead of Statement of Financial Accounting Standards No. 131 of the U.S. Financial Accounting Standards Board.
2. Consolidated operating income (loss) is a value that deducts the cost of sales and selling, general and administrative from net sales.

## Financial Position and Cash Flows for the First Quarter of FY2007

Total assets increased by 1,197.4 billion yen from the end of June 2006 to 6,041.6 billion yen (US $\$ 49,118.4$ million), largely as a result of the acquisition of Westinghouse in October 2006.

Shareholders' equity stood at $1,150.0$ billion yen (US\$9,390.5 million) at the end of June 2007, an increase of 165.9 billion yen from the end of June 2006, mainly as a result of generating net income during that period.

Total debt increased by 153.7 billion yen from the end of June 2006 to $1,333.6$ billion yen (US\$10,842.4 million). While this increase was due to funding the acquisition of Westinghouse, it was effectively minimized by concerted efforts to reduce debt, including sales of securities and fixed assets and profitability improvement.

As a result of the foregoing, the debt-to-equity ratio as of the end of June 2007 was $115 \%$, a 4-point improvement since the end of June 2006.

Free cash flow was minus 143.4 billion yen, a 37.1 billion yen deterioration from the year-earlier period.

## Performance Projections for FY2007

## First Half of FY2007

As the PC business is moving forward more strongly than originally anticipated, and the Semiconductor business is expected to make firm progress, Toshiba Group now anticipates higher consolidated business results than originally forecast. Accordingly, Toshiba Corporation has revised its original forecast for the first half of FY2007, announced on April 26, 2007, as below.

Consolidated Forecast for the 1st Half of FY2007 (April 1, 2007—September 30, 2007)

*Forward-looking Statement
This announcement contains forward-looking statements concerning Toshiba's future plans, strategies and performance. These forward-looking statements are not historical facts, rather they represent assumptions and beliefs based on economic, financial and competitive data currently available. Furthermore, they are subject to a number of risks and uncertainties that, without limitation, relate to economic conditions, worldwide mega-competition in the electronics business, customer demand, foreign currency exchange rates, tax rules, regulations and other factors. Toshiba, therefore, wishes to caution that actual results may differ materially from our expectations.
