# Toshiba Announces Consolidated Results <br> for the First Six Months and the Second Quarter of Fiscal Year Ending March 2009 

TOKYO--Toshiba Corporation today announced its consolidated results for the six months (April-September) and the second quarter (July-September) of fiscal year (FY) 2008 ending March 31, 2009.

## 1. Overview of Consolidated Results

All comparisons for the first six months and the second quarter of FY2008 are with the same periods a year earlier, unless otherwise stated.

The global economy entered into a recessionary phase, caused by factors that included financial crisis from the subprime mortgage crisis in the US and rising energy and raw materials prices. Europe, relatively healthy in the previous period, saw economic deterioration, and Asia, which had enjoyed continuing economic expansion, also moved toward economic slowdown. The Japanese economy, impacted by the slowdown in the global economy, is entering an extremely severe economic slowdown that will see declines in corporate profits and stagnant consumer spending. As the worldwide financial crisis continues and concerns for inflation grow, global economic trends are unclear and difficult to predict.

In these circumstances, although Toshiba continued to promote proactive management, including strategic allocation of resources grounded in the Group strategy of achieving sustained growth with profit, Toshiba's overall consolidated sales in the first six months of fiscal 2008 were 3,495.8 billion yen (US\$33,613.8 million), a decrease of 194.1 billion yen, a result was influenced by steeper than expected declines in semiconductor sales prices and overall market shrinkage resulting from the economic downturn.

Consolidated operating income (loss) declined by 106.0 billion yen to -23.5 billion yen (-US $\$ 225.7$ million). While Digital Products recorded significant increases and Social Infrastructure saw a healthy performance with increased profit, Electronic Devices, particularly the Semiconductor business, saw notably lower operating income (loss). Income (loss) before income taxes and minority interest decreased by 140.3 billion yen to -63.5 billion yen (-US $\$ 610.6$ million) and net income (loss) decreased by 84.2 billion yen to -38.5 billion yen (-US\$369.8 million).

(* Change from the year-earlier period)
Digital Products: Lower Sales and Higher Operating Income
The Digital Media Network business generated increased sales on solid performances in TVs and hard disk drives. The PC business also saw increased sales on higher shipments in Europe. The Retail Information Systems and Office Equipment business, however, saw lower sales in Europe and the United States due to the economic downturn, and following a spike in demand in the year-earlier period. The Mobile Phone business also saw lower sales and fewer shipments, the result of a changed sales system in Japan. As a result, overall segment sales decreased by 62.5 billion yen to $1,376.7$ billion yen.

Operating income (loss) was higher by 28.4 billion yen, producing a profit of 28.7 billion yen. Although the Mobile Phone business saw a lower performance, the PC business generated higher income and the TV business moved into the black with significantly
increased profit. There was also a positive impact of withdrawal from the HD DVD business.

Electronic Devices: Lower Sales and Significantly Lower Operating Income (Loss) Electronic Devices saw overall sales decline by 105.6 billion yen to 777.7 billion yen on lower sales in the Semiconductor business, primarily in memories and system LSIs.

Despite an improved performance in the LCD business, segment operating income (loss) decreased by 117.5 billion yen to -63.5 billion yen, as price erosion in NAND flash memories, yen appreciation, and a deteriorated performance in system LSIs took the Semiconductor business into the red.

Social Infrastructure: Higher Sales and Higher Operating Income
Social Infrastructure saw increased sales and solid performances in the Power Generation Systems business, including nuclear energy, and the Transmission Distribution \& Industrial Systems business. In spite of lower sales in the Social Infrastructure Systems business, overall segment sales increased by 3.7 billion yen to $1,090.2$ billion yen.

The segment increased profit by 3.8 billion yen to 23.8 billion yen. The Power Generation Systems business, including nuclear energy, and the Transmission Distribution \& Industrial Systems business saw healthy performances, but results in the Social Infrastructure Systems business were lower. The Medical Systems business maintained high profitability.

Home Appliances: Lower Sales and Lower Operating Income (Loss)
Home Appliances saw sales decrease by 18.4 billion yen to 365.4 billion yen, as slumping personal consumption undermined sales in the White Goods business and decreased housing construction in Japan impacted on the Lighting business.

Segment operating income (loss) was lower by 5.9 billion yen at -7.1 billion, as rising raw materials costs resulted in a lower performance in the White Goods business and market deterioration influenced the Lightning business and the Air-conditions business.

Others: Lower Sales and Lower Operating Income (Loss)
Others saw decreased sales and operating income (loss), primarily on lower sales in the real estate business.
(2) Overview of Consolidated Results for the Second Quarter (July-September) of FY2008

| (billion yen) |  |  |
| :---: | :---: | :---: |
|  | 2Q of FY2008 | Change from 2Q of FY2007 |
| Net sales | 1,877.1 | -148.2 |
| Operating income (loss) | 0.7 | -60.6 |
| Income (loss) before income taxes and minority interest | -47.1 | -89.9 |
| Net income (loss) | -26.9 | -51.9 |

Toshiba's consolidated sales for the second quarter of FY2008 decreased by 148.2 billion yen to $1,877.1$ billion yen (US $\$ 18,049.1$ million).

Consolidated operating income was 0.7 billion yen (US\$6.8 million), a decrease of 60.6 billion yen, as Electronic Devices saw significantly lower operating income, and Home Appliances also saw a decline in performance, even though Digital Products and Social Infrastructure recorded increased operating income.

Income (loss) before income taxes and minority interest decreased by 89.9 billion yen to -47.1 billion yen (-US $\$ 452.9$ million). Net income (loss) also decreased by 51.9 billion yen to -26.9 billion yen (-US\$258.2 million).

(* Change from the year-earlier period)

Digital Products: Lower Sales and Higher Operating Income
The Digital Media Network business generated increased sales on solid performances in TV and hard disk drives from the same period a year ago. The PC business also saw
increased sales on higher shipments in Europe. The Retail Information Systems and Office Equipment business, however, saw lower sales in Europe and the United States due to the economic downturn and yen appreciation. The Mobile Phone business also saw lower sales and fewer shipments, the result of a changed sales system in the Japanese market. As a result, overall segment sales decreased by 42.9 billion yen to 732.4 billion yen.

Segment operating income (loss) increased by 12.9 billion yen to 15.5 billion yen. Although the Mobile Phone business saw a lower performance, the PC business generated higher income and the Digital Media business recorded a solid performance, as TVs improved significantly and moved into the black, and withdrawal from the HD DVD business had a positive impact.

Electronic Devices: Lower Sales and Significantly Lower Operating Income (Loss) Electronic Devices saw overall sales decline by 95.7 billion yen to 412.0 billion yen on lower sales in the Semiconductor business, primarily in memories and system LSIs.

Despite an improved performance in the LCD business, segment operating income (loss) decreased by 66.6 billion yen to -29.3 billion yen, as declines in sales prices for NAND flash memories, yen appreciation, and a deteriorated performance in system LSIs took the Semiconductor business into the red.

Social Infrastructure: Lower Sales and Increased Operating Income
Although the Power Generation Systems business and the Transmission Distribution \& Industrial Systems business saw higher sales, the IT Solutions business saw lower sales as the economic slowdown brought down capital investments, and the Social Infrastructure Systems business also saw decreased sales. As a result, overall segment sales decreased by 16.3 billion yen, to 601.5 billion yen.

The segment consolidated operating income increased by 0.4 billion yen to 19.5 billion yen. The Power Generation Systems business, primarily nuclear energy, and the Transmission Distribution \& Industrial Systems business both posted solid performances. The Medical Systems business maintained a high profit level, but on lower operating income.

Home Appliances: Lower Sales and Lower Operating Income (Loss)
Home Appliances saw sales decrease by 3.8 billion yen to 193.3 billion yen, as slumping personal consumption undermined sales in the White Goods business and the decreased housing construction impacted on the Lighting business.

Segment operating income (loss) were lower by 1.6 billion yen, and stood at -0.2 billion yen, as rising raw materials costs resulted in a lower performance in the White Goods business and market deterioration influenced the Lightning business.

## Others: Lower Sales and Lower Operating Income

## Note:

Toshiba's Consolidated Financial Statements are based on U.S. generally accepted accounting principles. The consolidated segment information is presented based on Article 15 of the Regulations for Quarterly Consolidated Financial Statements of Japan instead of Statement of Financial Accounting Standards ("SFAS") No. 131 of the U.S. Financial Accounting Standards Board.
Operating income (loss) is, in accordance with accounting practices in Japan, derived from a value that deducts the cost of sales and selling, general and administrative expense from net sales, allowing comparison with other companies in Japan. Some items that are classified as operating income (loss) under U.S. GAAP, such as restructuring charges covering reorganization costs and gains (losses) on the sale or disposal of fixed assets, may be presented as non-operating income (loss).

## 2. Financial Position and Cash Flows for the Six Months of FY2008

Total assets increased by 109.2 billion yen from the end of March 2008 to 6,044.8 billion yen (US\$58,123.1 million).

Shareholders' equity was 954.1 billion yen (US\$9,174.0 million), a decline of 68.2 billion yen from the end of March 2008, reflecting a decrease in other comprehensive income (loss) due to a net loss of -38.5 billion yen and a worsening stock market.

Total debt increased by 332.4 billion yen from the end of March 2008 to 1,593.4 billion yen (US\$15,321.1 million).

As a result of the foregoing, the debt-to-equity ratio was $167 \%$, a 44 -point worsening from the end of March 2008.

Free cash flow for the six months (April-September) was -251.8 billion yen, 161.0 billion yen lower than for the same period of the previous year. The worsened net income (loss) was the cause of lower cash flows from operating activities. Cash flows from investing activities also worsened against the same period of the previous year.

## Formulae:

Shareholders' equity ratio: Shareholders' equity/total assets
Equity ratio based on market value:
Market value of shareholders' equity*/total assets
*Market value of shareholders' equity is calculated as the closing stock value at the end of a fiscal period $x$ number of shares authorized at the end of a fiscal period without treasury stock
Cash flow to interest-bearing debt ratio:
Total debt, average value at the beginning and the end of a fiscal period/net cash provided by operating activities
Interest coverage ratio:
Net cash provided by operating activities / interest payment

Note: Shareholders’ equity ratio and equity ratio based on market value are calculated based on shareholders' equity pursuant to U.S. generally accepted accounting principles.

## 3. Performance Projections for FY2008

Toshiba has not yet revised the projections for fiscal year 2008 consolidated results that it announced on September 19, 2008. Economic conditions have changed drastically since then and remain very uncertain, and it will take time to fully assess emerging economic trends and their implications.

## 4. Others

(1) Changes in significant subsidiaries during the period (changes in Specified Subsidiaries ("Tokutei Kogaisha") involving changes in the scope of consolidation): None
(2) Use of simplified accounting procedures, and particular accounting procedures in preparation of quarterly consolidated financial statements: Yes

Income taxes
Interim income tax expense (benefit) is computed by multiplying income before
income taxes and minority interest for the six months ending September 30, 2008 by a reasonably estimated annual effective tax rate for FY 2008, ending March 31, 2009. The estimated annual effective tax rate reflects a projected annual income before income taxes and minority interest and the effect of deferred taxes.
(3) Change of accounting rules, procedures and indication policies in preparation of quarterly consolidated financial statements: None

*Forward-looking Statement
This announcement contains forward-looking statements concerning Toshiba's future plans, strategies and performance. These forward-looking statements are not historical facts, rather they represent assumptions and beliefs based on economic, financial and competitive data currently available. Furthermore, they are subject to a number of risks and uncertainties that, without limitation, relate to economic conditions, worldwide mega-competition in the electronics business, customer demand, foreign currency exchange rates, tax rules, regulations and other factors. Toshiba, therefore, wishes to caution that actual results may differ materially from our expectations.
