TOSHIBA

TOSHIBA IR Day 2019

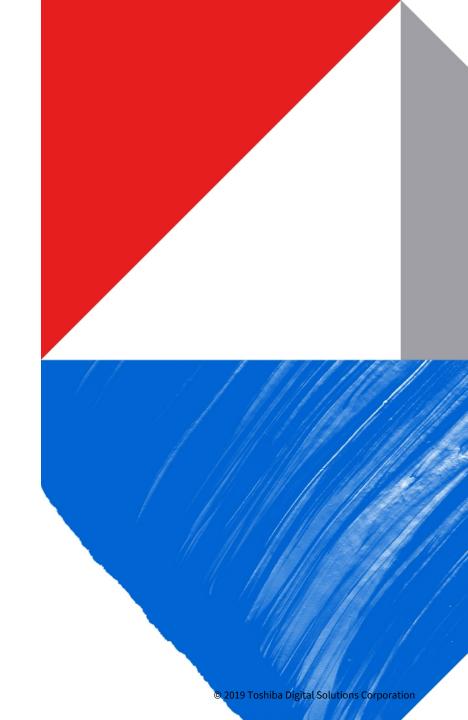

Digital Solutions

Hironobu NISHIKORI

Executive Vice President Toshiba Corporation

President and CEO TOSHIBA Digital Solutions Corporation

November 14, 2019

Forward-looking Statements

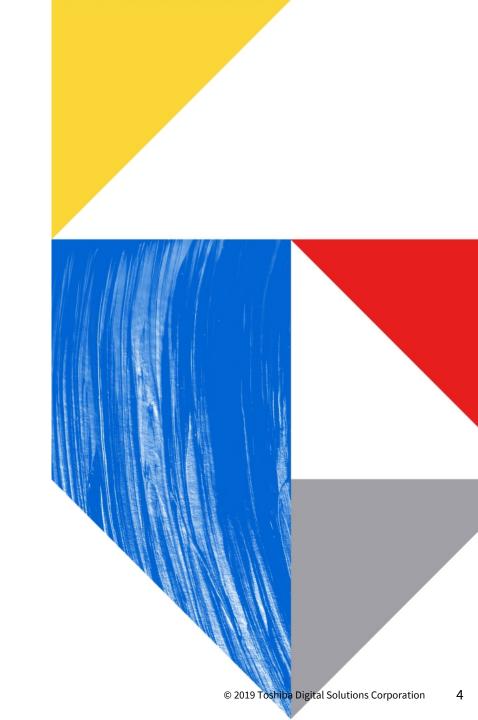

- This presentation contains forward-looking statements concerning future plans, strategies, and the performance of Toshiba Group.
- These statements are not historical facts; rather, they are based on assumptions and judgments formed by the management of Toshiba Group in light of currently available information. They include items that have not been finally decided at this point and future plans that are yet to be confirmed or that require further consideration.
- Since Toshiba Group promotes business in various market environments in many countries and regions, its activities are subject to a number of risks and uncertainties that are, without limitation, related to economic conditions, worldwide mega-competition in the electronics business, customer demand, foreign currency exchange rates, tax rules, regulations, geopolitical risk, natural disasters and other factors. Toshiba therefore wishes to caution readers that actual results might differ from expectations. Please refer to the annual securities report (Yuukashoken houkokusho) for FY2018 and the quarterly securities report (shihanki houkokusho) for the second quarter of FY2019 (both issued in Japanese only) for detailed information on Toshiba Group's business risk.
- Toshiba's fiscal year (FY) runs from April 1 to March 31. All figures are consolidated totals for 12 months, unless otherwise stated.
- Results in segments have been reclassified to reflect the current organizational structure, unless otherwise stated.

Agenda

- **01** Business Domain and Focus Initiatives
- **02** Business Goals
- 03 Initiatives for Further Growth
- 04 Realizing the SDGs in Our Value Chain

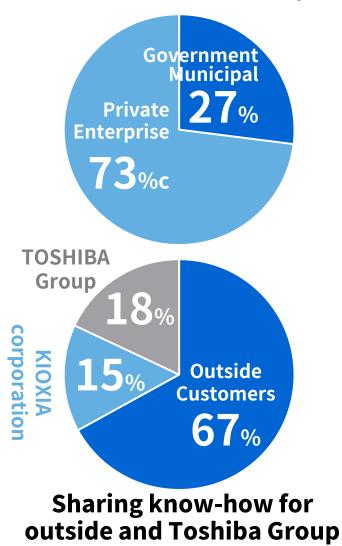

01

Business Domain and Focus Initiatives

Digital Solutions Business Domain and Focus Initiatives

FY18 Results Net Sales 253.1 billion yen

Existing Reinforce SI Business Optimize costs by leveraging off-shore resources Business

- Selection and concentration (business fields and customers)
- (2) Standardization of software assets

New

Reforming business models Business with digital technology (promotion of DX *)

- (1) "Co-creation" with customers and partners, open innovation
- 2 Total capabilities of Toshiba Group's synergies (IoT / AI) x (Accumulated Knowledge of Various Domains)

* DX: Digital Transformation

Digital Solutions Recent Business Activities

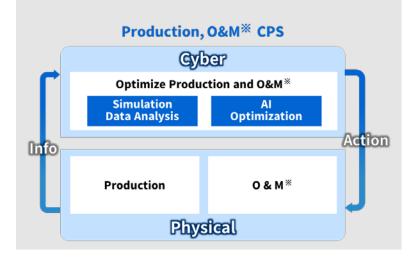

Global Business with Mitsui & Co., Ltd

- UK National RailImprove railway operation
- Spain GestampFactory DX
- Mexico FalconThermal power generationO&M

Factory IoT (Meister Series™)

Factory IoT Solution
(Now more than customers)

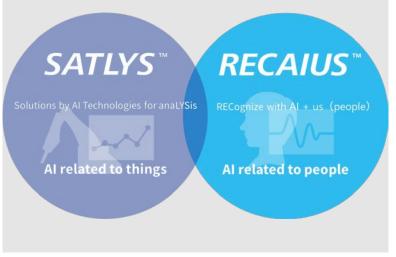

RECAIUS

(Voice / Image AI)

RECAIUS business

Completion about 160

POC about 300

02

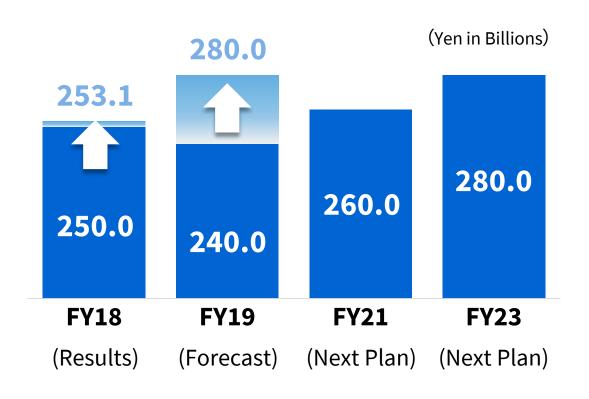

Business Goals

Current Status of Progress on the TOSHIBA Next Plan

Digital Solutions Business Goals

Net Sales

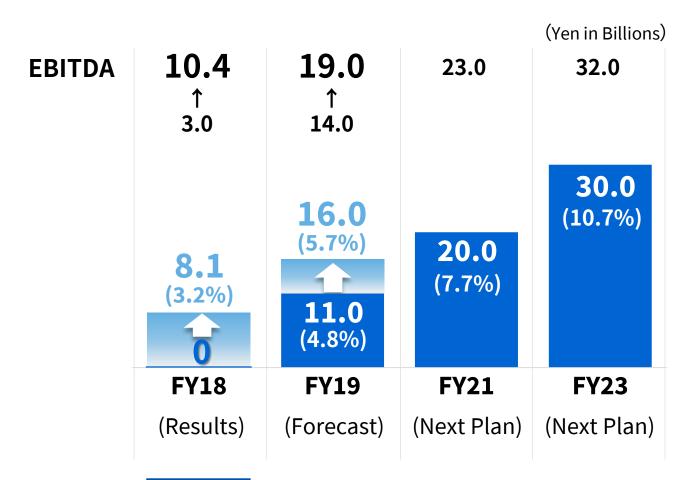

FY23Goal of Net Sales

280.0 Billion Yen

Digital Solutions Business Goals

Operating Income (ROS)

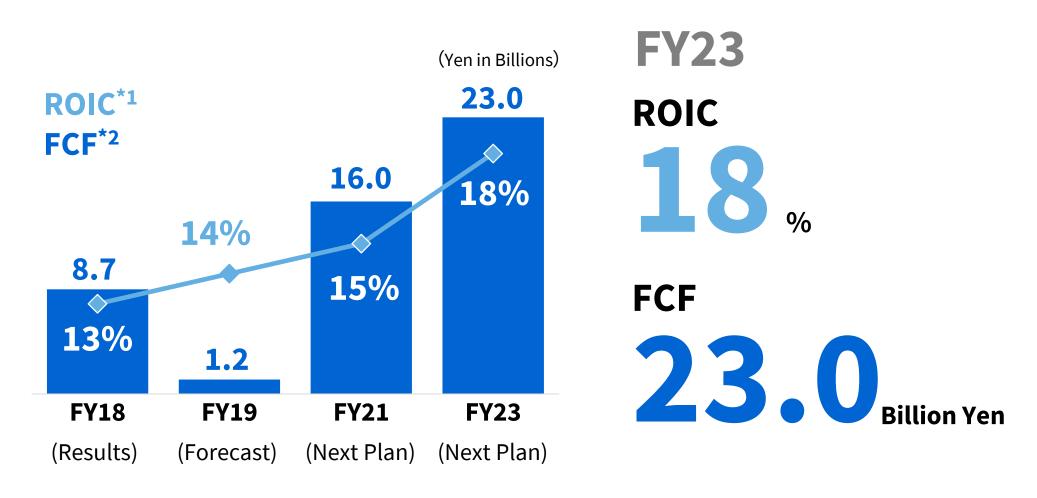

FY23 Goal of Operation Income 30. O Billion Yen ROS 10.7%

··· Operating Income Target of Next Plan

Digital Solutions Business Goals

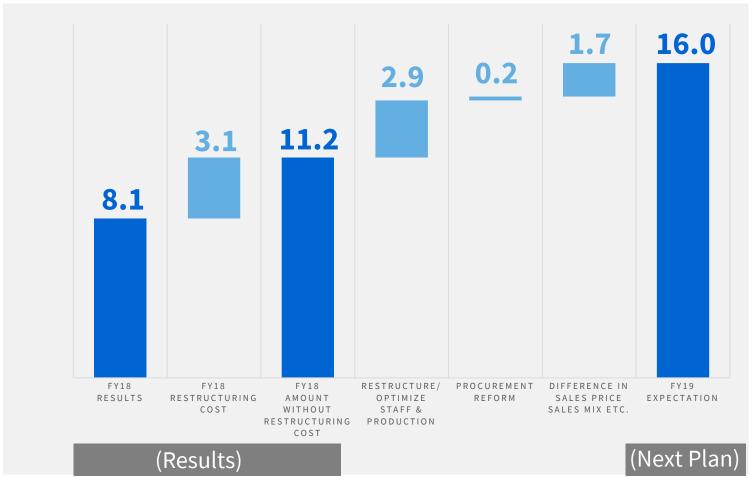

ROIC • FCF

Improvement Plans for Digital Solutions Operating Income (FY18 → FY19)

Plan to improve profit through structural reforms and business transformation

(Yen in Billions)

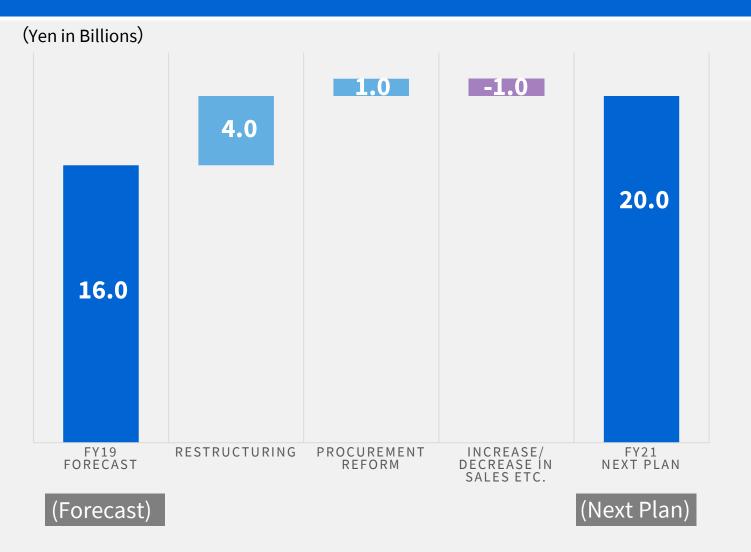

FY19 forecast

16.0 Billion Yen

Improvement Plans for Digital Solutions Operating Income (FY19 → FY21)

Plan to improve profit through structural reforms and business transformation

FY21 Next Plan

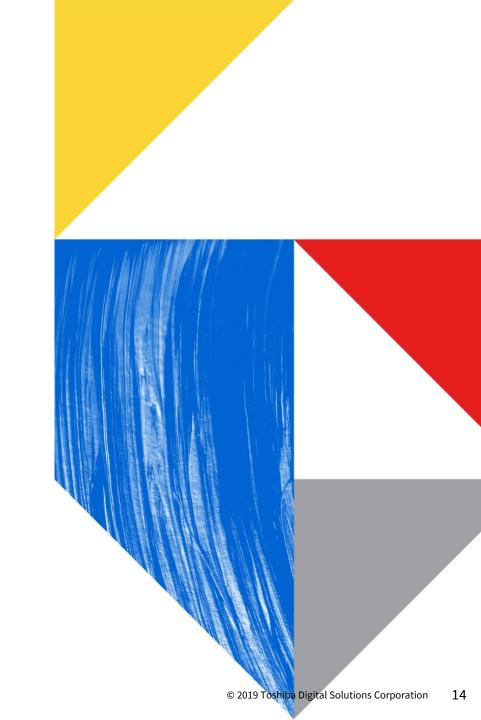

20.0 Billion Yen

Digital Solutions: Revenue, Operating Income, EBITDA

Digital Solutions	FY18	FY19	FY21	(Yen in Billions)
Net Sales	253.1	280.0	260.0	
Operating Income	8.1	16.0	20.0	
EBITDA	10.4	19.0	23.0	

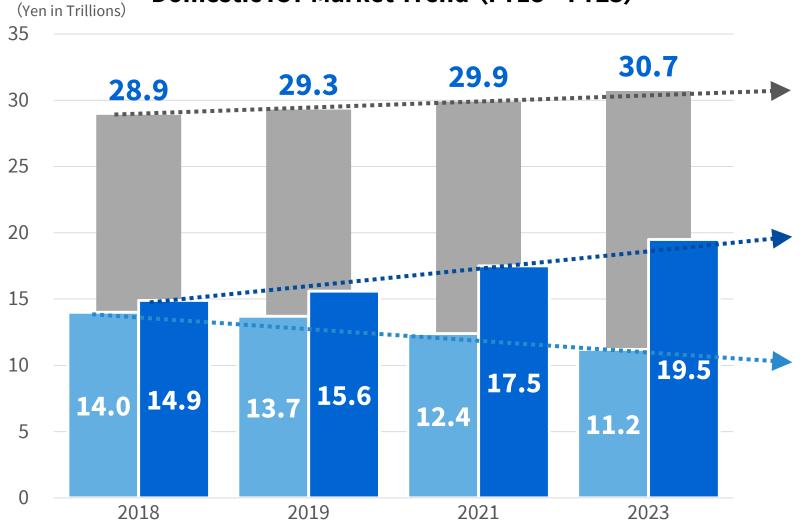

03

Initiatives for Further Growth

Digital Solutions Market Trend

Total Domestic ICT Market Slow Growth: CAGR 1.2%

the 3rd Platform Market Drives Growth: CAGR 5.5%

New Digital Services
Cloud, Big Data,
Mobility, Social

the 2nd Platform Market Declines: CAGR -4.5%

Existing IT ServicesClient and Servers

from System Integrator to Service Integrator

Integrator

Existing SI

Customized development **Cost base**

Requirement definition and System Development

Requirement:

Customer-led decision

Development:

One time for long, long time

DX SI

Co-creation Open innovation

Create new business

Value base

Recurring Revenue

Requirement:

Co-creation with customer

Development: Agile (several times for short) **After release:**

Often improve from findings in operation

Managed Service + Operation (keep providing during the lifecycle)

Keep supporting not only one lifecycle, but next generation

TOSHIBA's CPS: (IoT and AI) x Extensive Business Domain Assets

Data Cyber Total Capability of TOSHBA Group **Analysis Storage** AI and Digital Technology "Digital Twin" to Reproduce Precisely Action mation Buildings **Energy** Infrastructure Logistics **Manufacturing** Gathering **Physical** Control **Data**

ICT Know-how

Extensive Business

Domain Assets

Cooperation with Mitsui & Co. on CPS Business Establish Strategic Alliance to Accelerate Creation of DX Business

U.K. Greater Anglia National Rail

Railway Operation Plans with CPS Technology

(Press release on Sep. 10)

"Digital Twin" creating railway operation plans

Spain
Gestamp
Manufacture of Metal
Automotive Components

Welding Defect Detection Solution
with machine and deep learning of image data
Start a pilot test for a fee at Bielfeld Plant in Germany
(Press release on Oct. 28)

Mexico
Falcon
Thermal Power
Generating Plant

Optimize Operation Parameter with data from thermal power plant (POC)

⇒ Improve thermal efficiency, operation rate <u>Press Release on Nov. 1</u>

Greater Anglia "Railway Operation Plans with CPS"

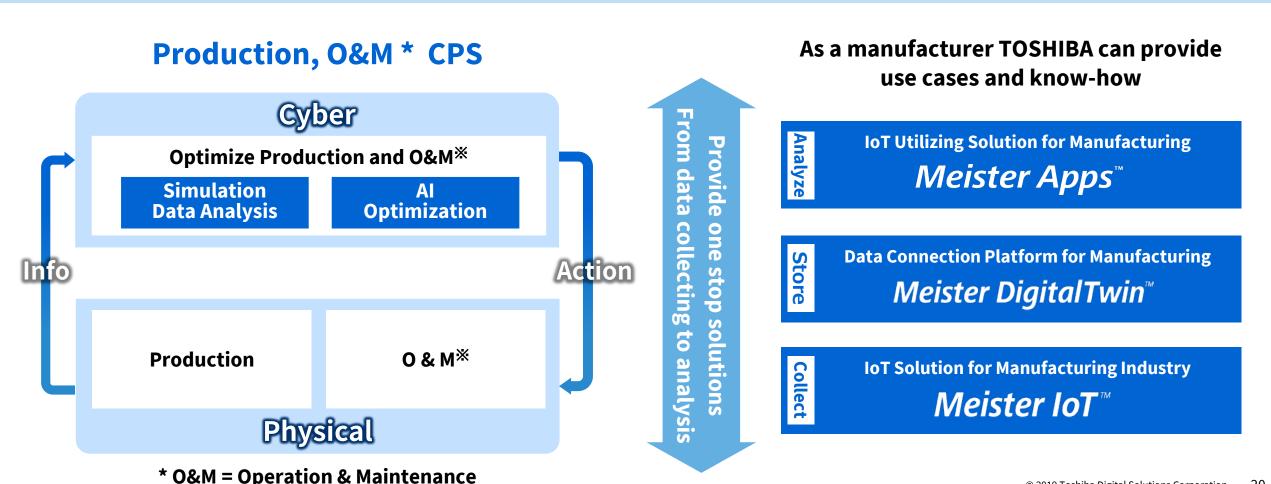

Railway Operation Plans with CPS Optimized Operation Plan Simulation Optimization Data Analysis Action **Data from the Real World** Lines, curves, slopes, signals results from operation, station stop times, etc.

CPS provides following values

- 1 Optimize
 railway operation plans
 Risk reduction of train delay
- 2 Improve customer satisfaction Improve customer convenience
- 3 Improve
 management efficiency
 Optimized crew operation plan
 Improved operation performance

IoT Solution for Manufacturing "Meister Series"

(Automobile 5, Industrial Machinery 3, Electronic Component 2, TOSHIBA Group 3)

RECAIUS use cases

productivity improvement efficiency Embedded voice middleware

Improve communication among employees

Registration assistance on CRM

Improve quality of telephone reception with recorded interactions

SATLYS use cases

forecasting anomaly detection factor inference deep learning

For Tokyo electric power company holding Won No.1 Prize

FY2016 The Japanese society for artificial intelligence
Field innovation award Gold medal

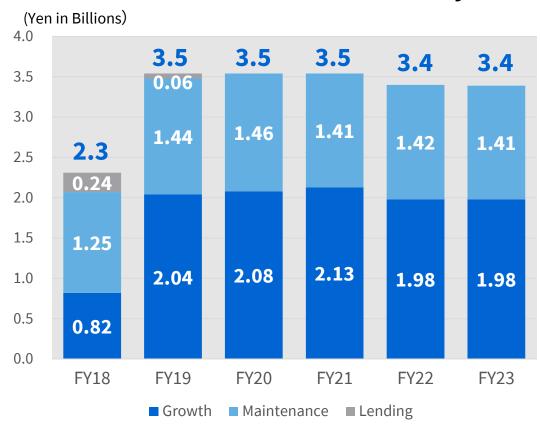

Joint Study with Chiba University Support pathologists suffering from shortage of human resources

Capital Expenditure / Research and Development

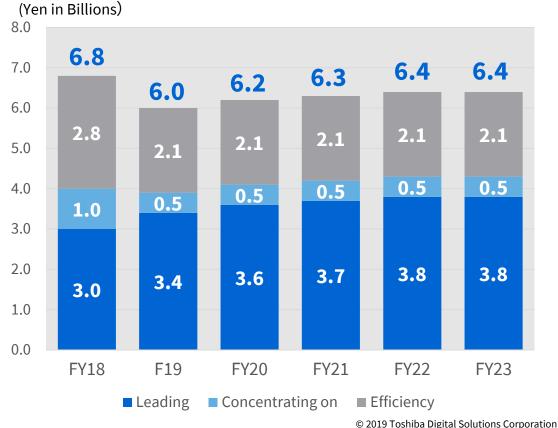

• Capital Expenditure:

- Prioritize investments where an earlier return can be expected
- Research & Development: Focus on R&D to change or create business model (SPINEX, RECAIUS, SATLYS)

■ Capital Expenditure (FY19-FY23 Total 17.3 billion yen)

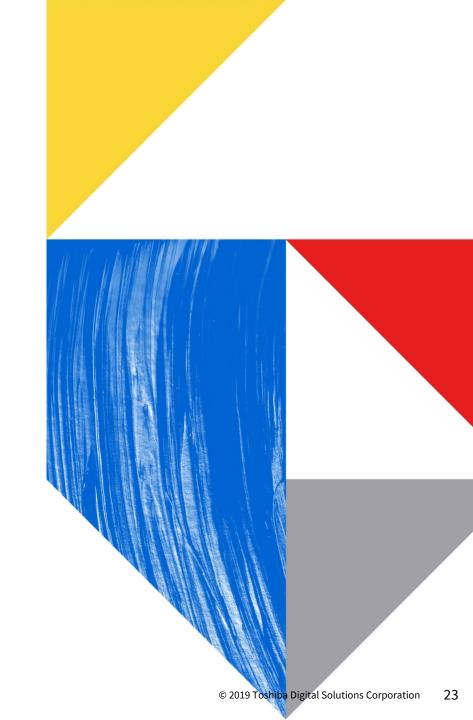

■ Research and Development (FY19-FY23 Total 31.3 billion yen)

04

SDGs against the Value Chain

SDGs against the value chain - Digital Solutions Business -

Contribute to the achievement of the SDGs with our vision "Making Society Better with Kind and People-friendly Digital Solutions"

INCREASING POSITIVE IMPACTS on SDGs

Contribute sustainable industrialization through IoT and AI technology innovation

-Manufacturing IoT solutions "Meister Series", Toshiba Analytics AI "SATLYS"-

Improve work-life balance by using AI and RPA

-Toshiba Communication AI "RECAIUS"-

Realize healthy and high quality life

-Solutions for welfare and health administration-

Technological innovation for efficient use of energy -Virtual Power Plant Solution-

Realize comfortable lives by optimizing operation of urban infrastructure

-Train Timetables using AI-enabled cyber-Physical Systems

Create new economic values and business models through co-creation

-Contribute to social innovation by promoting digital transformation globally in collaboration with Mitsui & Co.-

企画(商品戦略)

提案

調達

構築•導入

Measures against information security risks such as information leakage and data destruction that are progressing with the introduction of IoT and Al -Strong data security infrastructure, development of access management and encryption technology-

Measures against the risk of system downtime of social infrastructure due to system troubles

-System multiplexing, strengthening IT common infrastructure-

Measures against digital divide associated with the rapid spread of AI society

-Value creation by RECAIUS and SATLYS-

Measures against the energy consumption associated with the rapid spread of IT equipment -energy saving equipment and IT infrastructure-

TDSL Vision

Who We Would Like to be 10 Years Later and Several Actions to Achieve it.

Making society better with Kind and People-friendly Digital Solutions.

Imagine: Envisioning future standard

Change: Leading our own evolutions

Create: Co-Creating new value

Connect: Sharing our solutions worldwide

Committed to People, Committed to the Future.
