Please refer to the annual securities report (*Yuukashoken houkokusho*) and the quarterly securities report (*Shihanki houkokusho*) for detailed information on Toshiba Group’s business risk. Both the annual securities report and the quarterly securities report are issued in Japanese only.

Toshiba's New Business Segments

Achieve growth with infrastructure services as core business

Concept of Segment Classification

Basic Concept

- Business units are disaggregated to the smallest unit where ROIC is available.
- Infrastructure services business is defined as those businesses where service related business (renewal, repair, maintenance, and operation) constitute more than 50% of its core basis OP of FY20.
- Structural reform/monitoring businesses to be separated from the four segments. Incubation businesses are segregated. (Indivisible assets such as factories will be allocated to other businesses)
- Business will stay in the same segment throughout the mid-term period (FY22-FY24).
