■エネルギーモニター（ガス・水道を含む）

■電力逼迫状況表示（1日の電力グラフ）

■エアコン節電運転画面

The image shows a digital control interface for an air conditioner in 'eco' mode. At the top left, there is a pink bar with the 'eco' logo. The top right corner displays the time '10:48' and the text '現在の状態' (Current Status). The main control area is divided into three sections: '運転モード' (Operation Mode) with '冷房' (Cooling) selected, '温度設定' (Temperature Setting) at '28 °C', and '風量設定' (Fan Speed Setting) at '強風' (Strong Wind). Below these are buttons for '冷房' and '暖房' (Heating), and up/down arrows for temperature and fan speed. A green '設定する' (Set) button is located to the right. At the bottom, a list of room selections is shown, each with a green '選択' (Select) button.

運転モード	温度設定	風量設定
冷房	28 °C	強風
